JMIC Information Note

SOLAS INCIDENT

JMIC# 116 | Incident report Ref. UKMTO WARNING INCIDENT 024-25 | Gulf of Oman

JMIC has issued this SOLAS incident during a period of elevated maritime threat in the region. It should be noted that this incident is not a maritime security related event or a result of significant region tension.

1. On the 16th of June 2025, the tankers Front Eagle (IMO: 9855343) and Adalynn (IMO 9231767) collided in the Gulf of Oman, 26NM North East of Fujairah.

2. There is no indication that this incident is the result of hostile activity resulting from the ongoing regional conflict. Local authorities are dealing with the incident.

3. JMIC Guidance and Recommendations – With the elevated maritime threat situation and extensive electronic interferences in the region, JMIC recommends for mariners to practice safe navigation and seamanship while transiting. See JMIC Advisory and updates for further information on regional maritime security related events.
